## Compact Design

AuCom ratings are detailed using the AC53 utilisation code specified by IEC60947-4-2.

78 A: AC-53a 3.5-15 : 50-10

Starts per hour
On-load duty cycle (%)
Start time
Start current (multiple of FLC)
Start current rating (Amps)

The design of the EMX3 allows for multiple units to be mounted side by side, or in a bank of starters due to the flexibility in cabling options. Internally bypassed starters further reduce the overall size of your soft starter.
